Just completed in September 2001, the Elkhorn View features 14 inch diameter log construction, three large stone fireplaces, blaze slate floors, spectacular views, 32 foot high ceilings with huge exposed scissor trusses.

Come to relax, read, sit in the hot tub or sauna, explore the 440 acre park like ranch with Ponderosa pines, Douglas fir and aspen. Marvel at the endless variety of rock formations formed by the boulder batholith.

Large living area with a fireplace and 61 inch television is available for your relaxation. A hot tub on an outside deck, sauna and well equipped exercise room are also available. We offer high speed internet access though we recommend that guests use it only for pleasure.
