

CANCER

ISN'T THE ONLY THING YOU CAN GET FROM

BIG TOBACCO

YOU CAN ALSO GET A PACK OF LIES

Ordinance opponents claim to be in favor of "clean air", *as long as it isn't the air in their businesses.*

FACT: Air quality in bars and restaurants is three to six times worse than air in smoke free establishments and workplaces!!

They think it is OK to protect bank tellers, *but not bartenders.*

They think it is OK to protect secretaries, *but not waiters and waitresses.*

FACT: Bartenders and waiters and waitresses have 1.5 to 3.0 times more likelihood of suffering from lung cancer!

ALL OF US DESERVE EQUAL PROTECTION FROM SECOND HAND SMOKE

Dire claims of economic catastrophe are made but:

FACT: Clean air laws *don't affect business profits.* (See www.healthyhelena.org/lies for details)

They claim only adults are the victims of second hand smoke in bars and casinos.

FACT: 7 Helena bars and casinos have high chairs and cater to kids!

FACT: If this ordinance fails

NO CLEAN AIR ORDINANCE FOR HELENA CAN EVEN BE PROPOSED FOR TWO YEARS...

AND THEY KNOW IT.

**On June 4th, you have the opportunity to
protect ALL Helenans. You
can protect yourself, your
family, and your friends.**

**Vote
FOR
Clean Indoor Air**
